

Complaint Escalation Policy

Document ID: CS-002 | Version 3.2 | Effective: 1 January 2026 | Department: Customer Support

1. Overview

If a customer is not satisfied with the first response, the complaint can be escalated through three levels. Customers do not have to wait for a level to fail before asking for escalation once the target time has passed.

2. Escalation Levels

Level	Handled By	Response Target	Authority
Level 1	Support Agent	Within 24 hours	Standard resolutions, returns approval up to Rs. 10,000
Level 2	Senior Agent / Team Lead	Within 48 hours	Exceptions, refunds up to Rs. 50,000, seller warnings
Level 3	Customer Experience Manager	Within 5 working days	Policy exceptions, refunds above Rs. 50,000, seller suspension

3. When to Escalate

- The Level 1 target time has passed with no response
- The issue was closed but not actually resolved
- The customer reports rude or unprofessional behaviour by an agent or rider
- The case involves suspected fraud or a counterfeit product
- The claim value is above Rs. 10,000

4. How to Escalate

- Reply to the original case email with the word ESCALATE in the subject line
- Or tell the live chat agent: 'Please escalate case CS-YYYYMMDD-XXXXX'
- Or email escalations@daraz-demo.pk with the case number and a short description

5. Final Recourse

If the complaint is still unresolved after Level 3, the customer may approach the Consumer Protection Council of their province or file a complaint on the Pakistan Citizen Portal. Daraz will cooperate with any official inquiry and share the case history.

6. Seller-Related Complaints

When the complaint is about a Marketplace seller, Daraz contacts the seller and gives them 48 hours to respond. If the seller does not respond, Daraz resolves the case in the customer's favour under the Buyer Protection Program and recovers the amount from the seller.

7. Non-Retaliation

A customer who files a complaint will never be penalised, blocked or have their account restricted because of it.
