

Customer Support Guide

Document ID: CS-001 | Version 3.2 | Effective: 1 January 2026 | Department: Customer Support

1. Purpose

This guide explains how customers can reach Daraz Customer Support, what help is available, and what to expect at each step. It applies to all buyers in Pakistan, whether they ordered from a Daraz Mall store or a Marketplace seller.

2. Support Channels

Channel	Availability	Typical First Response
Live Chat (app and website)	9:00 AM - 9:00 PM, every day	Under 2 minutes
Helpline 042-111-000-000	9:00 AM - 9:00 PM, Mon-Sat	Average wait 4 minutes
Email help@daraz-demo.pk	24/7 intake	Within 24 hours
WhatsApp +92 300 0000000	10:00 AM - 8:00 PM, Mon-Sat	Within 30 minutes

Live chat is the fastest channel for order tracking, cancellations and return requests. Phone support is recommended for urgent delivery problems or when a rider is unreachable.

3. What Support Can Help With

- Order tracking and delivery delays
- Cancelling an order before it is shipped
- Starting a return or refund request
- Wrong, damaged or missing items
- Payment failures and double charges
- Account login, password reset and address changes
- Reporting a seller for misconduct or suspected counterfeit goods

4. Information to Keep Ready

Having the following ready shortens resolution time:

- Order number (format: 10-digit number, for example 1234567890)
- Registered phone number or email
- Photos or a short video of the product and packaging for damage or wrong-item claims
- Tracking number, if available

5. Identity Verification

For security, agents verify identity before discussing account details. The agent will ask for the registered phone number and the last 4 digits of the order number. Agents never ask for your password, full card number, CVV, or OTP. If anyone asks for these, end the conversation and report it to help@daraz-demo.pk.

6. Service Level Targets

Request Type	Resolution Target
Order status query	Immediate
Address change (before dispatch)	Within 2 hours
Return request approval	Within 24 hours
Missing item investigation	Within 3 working days
Payment double-charge review	Within 5 working days

7. Case Numbers

Every conversation that needs follow-up receives a case number in the format CS-YYYYMMDD-XXXXX. Customers should quote this number in all further contact so they do not have to repeat the issue.

8. Feedback

After each interaction customers can rate the agent from 1 to 5 stars. Ratings of 2 stars or below automatically trigger a supervisor review within 48 hours.
