

Delivery Guidelines

Document ID: DL-001 | Version 3.2 | Effective: 1 January 2026 | Department: Delivery

1. Purpose

These guidelines explain how orders are packed, shipped and delivered, and what customers should do when the rider arrives. They apply to all Daraz Mall and Marketplace orders within Pakistan.

2. Order Journey

Stage	Meaning	Customer Notification
Placed	Order confirmed, waiting for seller	SMS and email
Packed	Seller has packed the item	App notification
Shipped	Parcel handed to logistics partner	SMS with tracking number
Out for Delivery	Rider has the parcel for today	SMS with rider name and phone
Delivered	Parcel handed over and confirmed	SMS and email

3. Seller Dispatch Deadline

Marketplace sellers must hand the parcel to the logistics partner within 2 working days of the order being placed. Daraz Mall and Fulfilled by Daraz orders are dispatched within 1 working day. Orders not dispatched in time may be auto-cancelled and the customer is refunded in full.

4. At the Time of Delivery

- Keep your phone reachable on the registered number; the rider will call before arrival
- Check that the outer packaging is intact before accepting
- For high-value orders above Rs. 10,000, record a short unboxing video when opening the parcel
- Share the delivery OTP with the rider only after you have received the parcel
- For Cash on Delivery, pay the exact amount; riders carry limited change

5. Delivery OTP

For security, most orders use a 4-digit OTP sent by SMS. The OTP confirms that the customer has received the parcel. Once the OTP is shared with the rider, the order is marked Delivered and any claim of non-delivery will be treated as a fraud risk. Never share the OTP before you physically hold the parcel.

6. Damaged or Open Packages

If the outer packaging is torn, wet or visibly tampered with, the customer may refuse delivery. The rider will record the refusal reason and a full refund will be processed. If damage is found after opening, raise a return request within 7 days.

7. Delivery Address Rules

- Delivery is to the address selected at checkout; it cannot be changed once the order is Shipped
- Riders do not deliver to a different person without the OTP
- PO Box addresses are not supported

- Include a landmark and a second phone number for faster delivery

8. Contactless and Safe Drop

Customers may request contactless delivery in the order notes. For prepaid orders the rider may leave the parcel with a gate guard or neighbour only if the customer confirms by phone and shares the OTP.
