

Refund Procedures

Document ID: RF-001 | Version 3.2 | Effective: 1 January 2026 | Department: Refunds

1. Purpose

This document describes how refunds are requested, verified and paid out. A refund is triggered when an order is cancelled, a return passes quality check, an item is undelivered, or a dispute is resolved in the customer's favour.

2. Refund Triggers

Scenario	Refund Starts When
Order cancelled before shipment	Cancellation is confirmed
Order undelivered / lost in transit	Order is marked lost by logistics
Failed delivery (3 attempts)	Parcel returns to warehouse
Return approved	Return passes quality check
Wrong or missing item	Claim is approved
Duplicate payment	Duplicate is verified

3. Step-by-Step Process

- Step 1: Customer cancels the order or raises a return request in the app
- Step 2: Request is reviewed and approved (within 24 hours)
- Step 3: For returns, the item is picked up and passes quality check
- Step 4: Refund is initiated and the customer receives an SMS and email confirmation
- Step 5: Money reaches the customer according to the refund method timeline
- Step 6: Case is closed after the customer confirms or after 7 days of no response

4. Refund Amount

The refund normally covers the item price and any shipping fee paid, except in change-of-mind returns where a Rs. 150 return fee is deducted and the original shipping fee is not refunded. Voucher discounts used on the order are not refunded as cash. Instead, unused vouchers are re-issued to the customer's account for 30 days where possible.

5. Partial Refunds

A partial refund may be issued if an item is returned with missing accessories (deduction equal to the accessory's listed value), or if the customer agrees to keep a slightly damaged item in exchange for a discount. Partial refunds require the customer's explicit consent.

6. Cash on Delivery Orders

Because no online payment was made, COD refunds require the customer to provide a bank account or mobile wallet (JazzCash or Easypaisa). The account holder name must match the name on the Daraz account. Refunds cannot be paid in cash.

7. Proof of Refund

Customers can download a refund confirmation from My Orders > Refund Details. It shows the refund reference number (format RF-XXXXXXXX), amount, method and date.
